

YELLOW JACKET®

RecoverXLT™ Refrigerant Recovery Machine

Refrigerant Recovery the Smart Way

Leading HVAC/R professionals understand that it pays to work smart. That is, the quickest way is not always the best way. Case in point – refrigerant recovery. If you slug the compressor with liquid, not only *can* it cause premature compressor failure – it will.

The YELLOW JACKET® RecoverXLT™ Refrigerant Recovery Machine helps you work smart. The built-in constant pressure regulator (CPR) valve regulates the refrigerant input to protect the compressor. There's no need to worry about slugging because the RecoverXLT controls that for you. How confident are we? Confident enough to offer you the leading warranty in the industry on the compressor – three years.

Working smart means carefully considering the claims of manufacturers. Can you really safely remove refrigerant quicker? Not without putting your equipment at risk. And when your compressor fails in the middle of a service call, how much time and money are you really saving?

Set yourself up to work smart. Surround yourself with the hardest working, highest performing tools available. YELLOW JACKET RecoverXLT and other YELLOW JACKET service tools for the HVAC/R service professional.

**AVAILABLE IN THREE
COLORS:
TOUGH BLUE,
HARD-WORKING BLUE,
& RELIABLE BLUE.**

Features

- Fast recovery of Class II, III, IV and V refrigerants including R-410A.
- Patented single valve control for easy changeover from liquid to vapor to purge.
- Lightweight case designed for easy carrying.
- Automatic shut-off at 15" of vacuum and automatic restart if pressure rises.
- CPR valve to regulate refrigerant input and **protect the life of the compressor.....and your investment.**
- Auto purge clears residual refrigerant for quick change from one refrigerant to another. Auto purge clears residual refrigerant for quick change from one refrigerant to another.
- **3 year warranty** on compressor.
- Designed and manufactured in the U.S.A.

UPC#	Description
95760	RecoverXLT Refrigerant Recovery Machine (115V/60Hz)
95762	RecoverXLT Refrigerant Recovery Machine with Tank Overfill Switch (TOS)
95763	RecoverXLT Refrigerant Recovery Machine with CE Approval (230V/50Hz)

YELLOW JACKET® RecoverXLT...Refrigerant Recovery the Smart Way

Lightweight case designed for easy carrying.

Specifications - RecoverXLT	
Capabilities	Vapor, liquid, push/pull
Compressor	1/2 hp, oil-less
Weight	32.6 lbs. (14.78 kg)
Size	19.3 x 12.4 x 12.5" (490 x 315 x 317 mm)
Refrigerants	12, 22, 134a, 407C, 410A, 500, 502, HP, MP, Blends
Electrical	115/60 Hz or 230/50 Hz
Overfill shut-off	Standard on 95762
Warranty	3 years compressor; 1 year parts and labor

Recovery Ratings per UL* ARI - 740-98 Vacuum Level: 15 inHg						
	Lbs./min			Kg./hr.		
	Vapor	Push/Pull	Liquid	Vapor	Push/Pull	Liquid
R-12	0.37	12.81	1.98	10.2	348.6	54
R-22	0.37	12.81	1.98	10.2	348.6	54
R-500	0.37	12.81	1.98	10.2	348.6	54
R-502	0.66	12.9	2.65	18	351	72
R-134a	0.37	12.81	1.98	10.2	348.6	54
R-410A	0.42	11.6	1.68	11.4	315.6	45.6

*UL and ARI tests are only one way to evaluate recovery speed, and rates are a "level field" comparison method. In other testing conditions, units can exhibit much higher rates.

Patented single valve control for easy changeover from liquid to vapor to purge.
